

Help on translating the Ubuntu guide Ver 20260107

Ubuntu manuals can be converted to the desired language using Google Translate.

1. Copy the Ubuntu pdf file to your computer. The file must be a pdf file of less than 10 MT.
2. Open Google Translator in your browser and follow the instructions below.

1. Open Google Translator

2. Select Document

3. Select

4. Select the file

5. Drag and drop the manual (max 10 MB)

6. Define language

7. Download to your computer

8. Links are working!

9. Change country (en->sp)

After translation
